

# Tucson Police Department Incidents for the Past 45 Days (TPD\_100BLK\_INCID)

## Disclaimer

The TPD 100-block incident file is generally updated nightly, and contains calls for service activity for the past 45 days.

This data is provided for informational purposes only. As the data is continually being updated, it is only representative of the point in time it was downloaded. The type of call, incident description, or location may change as a result of further investigation. Therefore, this data is not to be relied upon for official purposes.

All address locations have been rounded to the nearest hundred block, and reflects the location where the officer responded to the incident - not necessarily where the incident occurred.

The date and time displayed reflect when the incident was reported, not necessarily when it happened.

Lastly, there is a small margin of error when processing the data for mapping purposes; therefore, some incidents may either be omitted from, or inaccurately mapped.

To verify information or obtain official statistics, please contact the Tucson Police Department Records Section at (520) 791-4484 or by email at [PDRecords@tucsonaz.gov](mailto:PDRecords@tucsonaz.gov).
